

New student?

Peter van de Braak
the Netherlands

The 'new' Student

- is a Digital native
- is visual fixed, screen-eager
- can multitask
- is 24/7 Online
- is member of online communities
- shares everything with the world
- is searching for challenge and control of his/her environment
- uses Web 2.0 applications

But,.. The 'new' student

- is not always information competent
- uses web 2.0 only limited
- doesn't know many internet applications
- is limited because of his multitasking
- still wants knowledge and structure
- needs a coach to help him

With the introduction of ICT in the lessons you have to anticipate on the didactic and technologic zone of the nearest development of the teachers.

If you go to fast with didactical and technological renewal you can loose the contact with your teachers
